Professional Summary

Operations and delivery professional with 7+ years across production support, service operations, and delivery governance at Capgemini and Wipro BPO. Proven experience driving operational readiness, support-model onboarding, runbook and playbook development, knowledge transfer, hypercare and stabilization coordination, and SLA-driven incident, problem, and change management in enterprise environments. Strong ITIL-aligned service management foundation, stakeholder alignment across engineering, operations, infrastructure, and business teams, and hands-on use of AI to accelerate operational reporting and readiness documentation. Certified Scrum Master (CSM), bilingual English / Marathi, Pune-based. Open to Operations Integration / AMS Transition / Service Governance roles in Pune.
