Customer Service Manager (CSM) — Capgemini (Mar 2024 – Mar 2025)

As a CSM, I oversee end-to-end project ownership, ensuring seamless execution, stakeholder alignment, and successful

delivery. Leveraging my Certification expertise in E-Monitoring, SMART, GTD, and Agile methodologies, I track progress, identify risks, implement proactive solutions. I facilitate conflict resolution to maintain cohesion and use Excel for real-time project insights.

Lead PMO — Capgemini (Jul 2022 – Mar 2024)

As a Lead PMO, I was responsible for developing and standardizing project management methodologies, ensuring compliance with industry best practices. I worked closely with project managers and stakeholders to define clear objectives, establish budgets, and track progress using data-driven insights. I implemented training programs and coaching sessions to enhance the project management capabilities of teams, fostering a culture of efficiency and accountability. My role required proactive risk management, timely issue escalation, and conflict resolution to maintain project momentum. I leveraged Excel for real-time status reports, financial tracking, and performance metrics, enabling leadership to make informed decisions. Additionally, I conducted post-mortem project reviews, capturing lessons learned, and driving continuous improvement in project methodologies and standards.
